That it was irregular for the Bibliot, therefore, to take out a new process against the wessel upon the original cause of action. Ordered, therefore, that the present actes of the reasel he set as ite, and she be redoved to the claimant.

For hisbant, Mesers, Lursquie and Barlow; for claimant, Mesers, Benedict, Burr and Benedict.

UNITED STATES COMMISSIONER'S COURT-May 6 -

UNITED STATES COMMISSIONER'S COURT-May 6—
Before George F. Betts.

The Post-Office Foregary Case.

The United State set. Wen. Foller.

The cross examination of John B. Morray was consided to day, and Capt Leonard was examined. The evidence was not of much importance. The case was adjourned to the tab inst. at II e'clock, to allow the Government time to procure the attendance of some witnesses in Washinston.

Fassing Countraffer Coin.

Before Joseph Bringher.

Oscar Van Dyke was arrested for passing counterfeit quarter dollars. He stated that they were given to him by the defendant Stanley. Stanley was then arrested, and van Dyke was examined as a witness for the Government. It was shown that Stanley procured the bugits coin and used Van Dyke as medium for its circulation. Stanley was committed for trial. He is an eld offender, and has been wrested twice on similar complaints. COURT OF GENERAL SESSIONS-MAY 6.-Before

COURT OF GENERAL SESSIONS—MAY 6.—Before City Judge Russell.

The trial of Pameza Cox, for arson in the first degree, was commenced to day in this Court. Mrs. Cox is a colored ady, occupying a house in Twenty-airth strate. On October 29, 1857, she insured her furniture to the amount of \$400. Mr. Brown, the agent of the Goodhus First inarance Company, called on her and was unconvinced of the value of her furniture; but she assured him that she had valuable goods stored away, and so the insurance was effected. As far as the evidence has yet, been preduced, the biture was not worth one-third of the sum for which it was instruct. The trial was not concluded yesterday, and is adjourned till to-day.

COURT OF SPECIAL SESSIONS—May 6—Sefere Justices Ossons, Strengs and Quackensus; Number of cases on the calendar, 44. Maria Tucker pleaded guilty to stealing a place of

ching. Penitentiary six months.
Bridget Fagan was convicted of stealing a worsted bawl. Penitentary four months.
Bridget Keefe was convicted of stealing two pairs of

Thomas Miller was convicted of an assault and battery on Thos. H. Bulmer. Fentlentity one month.

William B. Drake was convicted of an assault and lattery on George F. Bond. Judgment suspended.
Charles Kraushar was convicted of an assault and battery on Cornelius Noyle. Judgment suspended.
William Haustedt was convicted of an assault and battery on Judan Ditts. Fined \$19.
Thomas Clark was convicted of an assault and battery on Judgment suspended.
Anna Hamilton was convicted of an assault and battery on Judgment suspended.
Robert Ellis was convicted of an assault and battery on Judgment suspended.
Robert Ellis was convicted of stealing a bundle of paper. Peultentiary three months.

Peultentiary three months. es W. Lawrence was convicted of embezzieent. Peniteutiary two months. Ellen Burk was convicted of stealing a pair of boote d other articles. Judgment suspended. Convictions, 23.

it exhibited the receipt and expenditure of \$2,925 during the year.

Mr. Darling then read the annual report. The report alluded to the many difficulties which the Society had to encounter, prominent among which was the difficulty which they experienced in breaking the subjects of their labors from the snarse of sin. But there were those who had excepted the refuge proffered them. The design was to afford a temporary home, and to retain those who were legitinate objects of their charity. Of the 77 persons who had been under moral and religious instruction of the Society, 41 hadleft the Asylum, some to return to their relatives, some to occupy situations of respectability and usefulness, and some to avail themselves of other kindred institutions. Others, however, weary of restraint and in love with sinful gratifications, had returned to the sacred word had enstamped upon their minds. The gospel had been preached each Subbath, and the reading of the Scriptures and religious instruction had been given each week day. Several conversions were announced, and in some instances papiets had accepted the Evangelical religion. Instances were noted where the former members of the institution had now attained pestions of high respectability, they having in some instances been married. positions of high respectability, they having in some instances been married.

Addresses were made by the Rev. Mr. CARPENTER, the Rev. Harvey D. GANNE and others.

Officers were elected for the ensuing year.

AMERICAN GEOGRAPHICAL SOCIETY .- A meeting of the Geographical Society was held last evening at the New-York University, Frederick C. Conklin, esq , presiding. Henry V. Poor, es 1., editor of The Rail. read Journal, delivered an address on the water-sheds read Journal, delivered an address on the water-sheds of the United States, illustrating the discourse by a mammoth map of the United States, 26 feet long by 18 high. The map was elaborate in execution, and was the work of Mr. Schroeter, the draughtsman of the Society. It exhibited all the mountain ranges, rivers, lakes, railroads, exhals, &c. The discourse of Mr. Poor embraced a general statement of the topography and geography of the country, and the bearings of the same upon the agriculture, art and commerce. It was listened to with much attention. At its conclusion, a vote of thanks was tendered to Mr. Poor for his able address.

THE SAILORS' HOME IN CHERRY STREET.-Capt. Tracey, Superintendent of the Sailors' Home, No. 190 Cherry street desires us to state that the Home is not closed, the reports to the contrary not withstanding.

closed, the reports to the contrary notwithstanding.

A MARMOTH Loc of MAHOGANY.—We notice in front of the mill of Messrs. Lewis Thompson & Co., Ridge avenue and Eleventh street, a mahogany log of most extraordinary dimensions. It is 16 feet in length and 4 feet in diameter, containing 3,048 superficial feet, and weighing about 13,500 pounds, or a fraction over six tons. It is perfectly sound and as straight as an arrow. It is said to be the largest log ever shipped from the mahogany country. According to the usual computations the tree must have been quite three centuries old when cut down. Includes log of mahogany we have any account of was cut in Honduras in 1826, and measured 17 feet in length by 64 inches in width and 57 in depth, containing over 5,000 superficial feet, and weighed about 12 tone; but it never was shipped from the country, and was left to rot upon the ground. The log in front of Thompson & Co.'s is from the coast of Mexico; it is beautifully mettled, and if sawed up into veneers would furner familiure enough for a small town. [Pril. Bulletic,

MARRIED. SEC N'S. RECEC. in this city, on Monday, May 3, by the Ext. Alexander Commune, Mr. Junes 5 : we to Mrs. Amand Reiter all of this city. Raile, all of the city.

DIED.

ARCHER—On Thursday, May 6, Jane, widow of Issac H. Archen, and 46 years.
The funeral will have place from Nn. 12 Grove street, New-York, on the 7th inst. (this day), at 35 o'clock.
BROWN—In this city, on Theeday, May 4. Caroline Matida, youngest dampher of Mary A and Wm. B. Brown, aged 1 year, 5 months and 6 days.
CUNNINGHAM—On Thursday, May 6, aged 56 years, Mts. Eleanor Connin sham.
Her friends and those of her ne phews, Junes, Peter and Thomas Hors, are respectfully invited to attend her funeral from the house of James Beamister, Pichty-fourth street, near First avence, this day (Friday), the 7th, at 2 o'clock p. m.
CONNERRY—At No. 30 Heater street, on Theeday, May 4, Mary Connerry, wife of Robert Connerry, aged 22 years.
CASTLES—At No. 117 Hodson avenue, Brooklyn, on Wednesday, May 5, Mary Castles, in the 71st year of her age.
DAYTOS—At No. 760 Broadway, on Wednesday, May 5, Mrs. Mary Dayton, aged 35 years.
FORT—At No. 39 Hudeon street on Wednesday, May 5, Mrs. Mary Dayton, aged 35 years.
FORT—At No. 39 Hudeon street on Wednesday, May 5, and druly, Henrietta Louiss Fort, aged 10 years.
HATFIELD—In Hoboken, on Thursday morning, May 6, after a long and severe illness, Jane Hathield, wife of Oliver S. Hathield, in the 724 year of her age.
The relatives and friends of the family are respectfully invited to attend the fameral from her late residence. No. 10 Bloomfeld place, on Estarday morning at 10 chick, without forther no ide.
JONES—At Elizabethyut, N. J., on Wednesday morning, May 5, street.
KELLY—At No. 241 Cherry street, Mary Ann Kelly, wife of T. J. Kelly.
LATHAM—At Brooklyn, on Monday evening, May 3, Asa A. Latham, formerly of Preston, Conn., in the 6th year of bia age.

KELLY—At No. 241 Cherry street, Mary Ann Kelly, wife of T. J. Kelly.

LATHAM—At Brooklyn, on Monday evening, May 3, Asa A. Latham, formerly of Preston, Conn., in the 48th year of his age. McIntyrRe—In Albany, N. Y., on Wednesday, May 5, Archibald McIntyre of that city, in the 88th year of his age.

MILLAR—On Wednesday, May 5, Robert Emmet Millar, speed 1 year, 1 month and 27 days.

RESLEY—At No. 252 Third avenue, on Thesday, May 4, suddenly, Sarah Ann Agnes, wife of Thomas Resley, and desighter of the late Robert Longe, aged 4 years and 3 months.

SHOTWELL—In this city, on Thursday, May 6, Abraham Shotwell, in the 964 year of his age.

His relatives and friends and those of the family are respectfully invited to strend the funeral, without further invitation, from his late residence, No. 218 West Twenty-eighth street, on Saturday, 8th Inst., at 3 o'clock p. m.

Saturday, 8th inst., at 3 o'clock p. m.

SHEPARD—At No. 190 West Thirty-ninth street, on Westnesday, May 8, Henry C., and of Elisha H. and Ruth Cary Supurd, sped 8 months and 2 days.

TRAVER—At his home, in Rhin-beck, on Tuesday morning, May 4, at 4) o'clock, Stephen Z. Traver, in the 50th year of his

up. WILSON-At No. 214 South Third treet, Brooklyn, on Tuesday, May 4, after a painful fillness, Wulliam P., eldest son of Nicholas F. and Ann Wilson, aged 15 years and 11 months.

COMMERCIAL MATTERS.

THURSDAY, May 6-P. M.

The reaction which has been for several days progressing in the Stock market, appeared to have eached its point of resistance this morning, and a change in the current ensued before the day closed. The market has thrown off to some extent the apathy and sluggishness noticed during most of last week, and now, though not vigorously active, seems to have more vitality and real strength. Ordinarily, this state of the market, accompanied by extraordinary mone-tary abundance, would foreshadow a speculative faver. stimulating, as it would generally, clique movements as well as outside ventures in the field of speculation; but there is certainly not the usual spirit manifested in such matters at the Stock Exchange, and the market appears to receive its impulses from the irregular movements of outside parties, assisted occasionally by a few leading operators at the Board who go in and out of stocks on moderate fluctuations. Thus, although we have an apparently rising market on a general scale, there is a lack of concentrated force in that direction, and an absence of sustained buoyancy and strength. Independent operations, rather than combined move-ments, are the fashion at present, and every one seems to be "fighting on his own book," whether for the rise

fine abundance of money; but the approaches to it are more gradua'. There was a fair degree of activity at the first Board—nearly every leading stock opening at a further decline, but gaining strength in con-cluding transactions. New-York Central went down to 881, and from that point was firmer, without much arimation. Erie was pressed for sale with considerable freedom, but displayed the same features of reviving strength as the call closed. The bears hammered Reading with considerable industry, but the demand for cash stock was tolerably active, ard but little impression was made upon the price. This stock is maintained with rather surprising steadinear, taking into consideration the constant and vigorous attacks upon it by the short interest. Mishigan Southern common stock opened heavily, and ran down to 24j on moderate sales, but was slightly better as the call terminated. The Preferred was less active at 491 on time, but also gave evidence of greater firmness in closing bids. Toledo began at 434, but was in demand at the quotation, and was afterward taken in large lots at 421 by a leading operator. Rock Island touched 77, from which point a rally took place, and the quotation ran up to 771 in closing transactions, with a brick demand for cash stock. The movement in this railway was the most vigorous of any during the day. Galena was steady and firmer, but not active. Panama was steady at 1074. This stock derives some of its strength from the fact that an extra dividend of 5 ? cent is urged upon the attention of the directors by some of the large stockholders. It is not probable, however, that such a declaration will be made, although it is understood that the means of the company would perm't it. Milwaukee and Mississippi was in request at 30 in early sales, and at the close was firm at an improvement of i. After the adjournment there was more inquiry for leading stocks, and the market moved up gradually until the Second Board assembled, when the better tone became more evident, and the advance more general. New-York Central, Michigan Southern and Rock Island were especially firmer, advancing 1 to 1 & cent each, and closing firm. A fair business in bonds has been transacted during the day. State stocks are in good demand and as a general thing improving, and the best class of railway bonds are quite steady. We hear of considerable movement outside of the Board in bank el ares and fire insurance stocks for investment. The desire to employ money safely seems to be the first consideration, and those stocks which appear to combine that element with a fair degree of productiveness, are absorbed quite readily. The closing bids is the street were for Erie, 241; New-York Central, 881; Realing, 48; Michigan Southern, 251; Preferred, 501; Hudeon River, 301; Rock Island, 781; Galene, 891;

Toledo, 44; Missouri 6s, 83;; Cumberland, 17. The foreign bill market is very firm but not active. The advanced rates demanded by drawers has operated to postpone remittances temporarily, and this can the more readily be done, as in many cases remitters are in alvance of their liabilities, the ease in the money market enabling them to anticipate. The supply of signatures other than bankers is not large, but the banks and bankers are believed to be very easy of Exchange. The leading drawers are firm to-day at 109], and the impression is that 109] a 109] will be the rate for Wednesday's boat. The agent of Rothschild

asks 110, and 5.121 for France.

Freights are very firm. To Liverpool, 400 bbls. Flour at 2e. 6d.; 14,000 bush. Wheat e packet of the first of June, part in buk at 8d. and part in bags at a still higher rate; 200 bales Cotton at 3-16d.; 300 boxes Cheese at 25s. To London, 100 bbls. Flour at 2s. 6d To Glasgow, 500, bbls. Flour at 2s. 6d; 300 bb's.

filled to the entire satisfaction of the Government and of every citizen who has had any business with him. We have reason to know that Mr. Cisco was very desirous of being relieved from this post, and only consented to retain it at the urgent personal solicitation of the President and Mr. Cobb. The business of the Clearing-House continues large. The amount to-day was \$20,436,422. The Cumberland Coal Company advertise in another column that the right of stockholders to convert their shares into Preferred Stock expires on the 31st inst. The inquiry for Three per cent Treasury Notes is fair at 25 & 35c., per \$100 discount. Those bearing a higher interest have been nearly all absorbed. The Five & Cents would bring ! We cant premium. The bids for the new issue promise to be very numerous. The inquiries in regard to the form, &c., of bid, are frequent at the Sub-Treasury, and many of the banks in and out of the city have decided to put in proposals. The notes will probably be taken at 41 to 5 P cent. The Exchanges between this city and Beston and Philadelphia have again turned in our favor, and no specie is being removed. It is not unlikely that we shall draw some from those cities. The South is taking some coin to sustain specie resumptions, but the amount is not important. North Carolina banks will probably resume during the latter part of this month, and South Carolina would follow suit but for the extended condition of the Bank of the State.

Tre result, possibly, may be the liquidation of that institution, and the resumption of specie payments by he remainder. At the present rate of foreign bills, if it be sustained, it is quite possible that we shall soon begin to lose some gold to Europe. Some purchases of bars have already been made, but it is not certain that they will be shipped at present.

The earnings of the Little Miami Railroad Company

The receipts of the Norwich and Worcester Road, in ..... \$10,651 41 April, show a decrease of about \$3,000 as compared

with April, 1857. Bussiness con inues generally dull, and capitalit and banks find the same difficulty in employing their finds as has been before noticed. Call losts are 423 4 cent, and some stock houses are paying off losus at P cent from the difficulty of using the money profiably. Paper of leading signatures is freely passed at 4 2 5 P cent, and occasionally even lower. The amount offering in the discount houses is very light. In proand some resuscitation of business will soon take place from this activity in breadstuffs, &c. What the counmy most wants now is a foreign demand for cereals, and this unfortunately does not appear to be very near at hand. The receipts of Flour at Buffalo to the 1st of May, were 154,819 barrels, against 93,146 barrels last year up to the 1st of June, and the deliveries of Wheat during the same periods were 692,356 bushels, against 744,671 bushes last year. The reduction of tods on the Caral has operated to attract some business from other avenues, and the tolls since the opening have been larger than up to the let June last season.

In relation to Dry Goods, The Independent save: or fall. This is precisely the difference between the condition of the Stock merket now and that described after the crisis had fairly spent itself last Artum. Then there was a general and irresistible rush in one direction, and one or two powerful cliques constantly working to sustain and simulate the market. Now, there is a diversity of opinion, and no understool unity of action. The result may be the same, upon the hypothesis that great speculations generally fellow a pro-

at limited credits, and at fair profits. There is an absence of competition which is beseficially felt notwithstarding. The commission bosses are active and the clothing houses are buying a little more extensively. In the general features of trade there is no charge. Old styles and coarse, low-priced goods are all in over-stock and mashible, except at a great sacrifice, while new goods and fresh styles are getting scarce and buoyant in price.

"The stock of desirable lumber left over last Fall has been disposed of since the resumption of river navigation, and is now out of market. Since the opening of the canals, and up to the lat inst., the receipts of lumber were 5,719,559 feet, the great bulk of which was spruce and hemlock from Glen's Falls, via the Champlain Canal. Boats have not reached here from the West via the Eric Canal, and it will take from ten to fifteen days of uninterrupted vavigation for dealers to obtain an assortment of desirable lumber. The market cannot be said as yet to have fairly opened."

Speaking of the lumber trade, The Albany Journal

At Philadelphia The Press says:

"In the Morey market the amount of business paper manufactured is very greatly reduced by the payment of cash for a heavy per centage of all purshases. The business thus transacted is eminertly saic, but for too limited in amount for the supply of capital and labor within the control of our citizens. What good paper is made in the ordinary course of business is at once absorbed by the Banks, and the bill brokers have hard work to sell the kind of paper which comes to their hands."

The Philadelphia North American says the successful trips of the steamhout James L. Catheart, on the

ful trips of the steamboat James L. Catheart, on the Chesspeake and Ohio Canal, is likely to work a revolution in regard to caral navigation. Several of the coal-carrying companies have also under consideration

Mineral Bank of Maryland, indicted for embezzling the funds of the institution, commenced at Cumberland on Monday last. The indictment includes twenty-one counts, covering the formal allegations of the offense charged in every possible varie'y of form.

Gov. Bockingham of Conn., in his message, makes

The business of the Sub-Treasury was: Receipts, \$64,169 64; \$55 000 from Castoms. Payments, \$92,516 99. Balance, \$3,017,816 46.

S. Draper's daily auction sele of bonds and stocks will take place to-morrow (Friday), at 124 o'clock, at the Merchants' Exchange.

Abert H. Nicolay's regular daily auction sele of stocks and bonds will take place to-morrow (Friday), at 124 o'clock, at the Merchants' Exchange.

The Home Insurance Company have moved to No. 112 Broadway, and not to No 4 Wall street, as was stated yesterdey.

This city and the country at large are to be congratulated upon the continuance in office of Mr. J. J. Ciscons Sub-Treasurer of this port, a post which he has filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of the Government and filled to the entire satisfaction of th

for the use of money than private citizens or any other association.

"It will be well to consider whether you may not, with a true and just regard to all their rights and your obligations to the public, limit a time for closing their business, or enset a law which shall prohibit them from taking any boans on any future loans and confine them to an interest of 6 P cent P annum."

In regard to reirroads he says:

"To do justice between these corporations and the public, I regard it as essential: First, that the party who operate a railroad shall be responsible for any loss or personal injury which may arise from the neglect of such party, or the carelessness of employees. Second, that creditors be so far protected that when a corporation defaults its interest or its principa', it may be prevented from operating its road so as to decrease the value of its property to the injury of its mortgages. Third, that mortgagees have full authority to foreclose, and with such foreclosure that all the corporate powers of the company be vested in the party foreclosing."

The mails by the Europa are at hand, and we find but little of importance in our files.

The return from the Bank of England for the week ending the 21st of April gives the following results when compared with the previous week: Public Deposits. Increase. £334,786
Other Deposits. £334,786
Rest. 7,260

On the other side of the account: Government Securities......£125,569 The amount of notes in circulation is £20,518 630, being an increase of £36,395, and the slock of bullion in both departments is £18,524,383, showing an increase of £277,054 when compared with the preceding return.

The Bullion market has been very quiet. The de-mand for the East having almost entirely ceased for the present, there is little inquiry either for Bar Silver or Mexican Dollars—the latter are quoted a Silver of Medican Doubler the latter are quoted a shade lower. There is still a moderate demand for Gold for export to the Continent, and South American Doubleons have been sold to some extent at our quo-

The Circular of Mr. Satterthwait says: The Chromat of Sh. Southing and Says:

There our advices of the 16th inst., we have had a continuance
of the quietness and stagnation in financial matrers that has so
long previoed. Money is abundant to repiction, and the resources
of the Bank of England assummate daily. As yet no class and has
been found sufficiently attractive to draw capital from its insctients.

Dismaters, &c.

Best Ottaws, from Matar ass for New York, which was towed into Charleston by steamship Nashville, get ashore on April 15 on the Mantanila Reef. Every effort was immediately made to get level, but without success. A heavy swell setting in, the vessil legan to strain, and the tide leaving her, she say aimset on her lean ends, when it was feared she would capate, and to prevent which the starboard part of the deek lead of moiases was started, which did not appear to esse the vessel, when the mainmant was act away, which, in falling, carried the foretonal yard. At 2 p. m., on the 37th, the still remaining ashore, the larboard deek lead was cut away, soon after which she get aftent, but it continuing to blow heavily and the vessel beginning to strike, had to throw ever it holds of upar, when the back was finally got clear of the breakers; also lost boat, &c. The Ottawa was towed from near Cape Romain to Charle ton by the Nashville.
